**APPLICANT'S COMMENTS ON EXAMINER'S STATEMENT OF REASONS FOR
ALLOWANCE**

Claims 1-13 have been allowed in this case. The Statement of Reasons for Allowance indicate that the prior art fails to teach features recited in the claims. To the extent that the stated reasons agree with the language of the individual allowed claims, and further recognizing that there may be other, unstated reasons why the claims are allowable, the applicants agree with the stated reasons.

Furthermore, it is a well known tenet of patent law that patent claims are read as a whole, rather than phrase by phrase or element by element. Therefore, the scope of the allowed claims is not necessarily limited only to the claim features mentioned in the statements, but rather, to the language of the claims themselves, in their entirety.

Finally, there is an independent claim allowed in this case, as well as various dependent claims that depend directly or indirectly from the allowed independent claim. Each of the allowed claims includes particular features and particular claim language, and therefore each has a scope different from the others allowed in this case.
